

## DEVELOP A PYTHON SCRIPT

Date	02-11-2022
Team ID	PNT2022TMID03720
Project Name	IOT based safety gadget for child safety monitoring and notification
Maximum Marks	4 Marks

SCRIPT:

The screenshot shows a Python IDE with a dark theme. On the left, a vertical toolbar contains icons for file operations, a search icon, a refresh icon, a settings icon, a JS icon, a database icon, and a terminal icon. The main editor area is titled 'main.py' and contains the following Python code:

```
1 num = int(input("Enter a number: "))
2 if (num % 2) == 0:
3     print("{0} is Even".format(num))
4 else:
5     print("{0} is Odd".format(num))
6
```

On the right side, there is a 'Shell' window with a 'Clear' button. It displays the output of the script after running: 'Enter a number: 25' followed by '25 is Odd' on a new line. The 'Run' button is highlighted in blue at the top of the editor.

```
num = int(input("Enter a number: "))
if (num % 2) == 0:
    print("{0} is Even".format(num))
else:
    print("{0} is Odd".format(num))
```
